

# Four Layers of Safety to Minimize the Risk of COVID-19 Spread on Campus

## Testing & Screening

- Stay home if you are symptomatic
- Leave work if you develop symptoms
- Control to whom you're exposed
- Get tested regularly
- Get tested if you've possibly been exposed

## Distancing

- One-way hallways & stairs
- Clear signage
- Phased return of staff
- Phased arrival and departure of staff
- Spread out to fill the available space
- Return the most vulnerable staff as late in the process as possible

## Hand Hygiene

- Wash your hands with soap and water for 20+ seconds at least hourly, and after:
  - ✓ Arriving at work and wiping your workspace
  - ✓ Touching your face
  - ✓ Using shared office equipment
  - ✓ Handling money
  - ✓ Changing locations
  - ✓ Coughing or sneezing
  - ✓ Using a shared vehicle
- Use hand sanitizer if you're unable to wash your hands

## Block Droplets

- Face Coverings or Face Shields
- Acrylic or PVC barriers
- Reorient workspaces to not face each other
