

Attention Fire Service Women!!!!

Join us Saturday, October 9, for a day
of training and networking!

This is an opportunity for all Illinois female firefighters who are interested in creating a network of fire service women to gather together for a day of training. You'll choose the type of training you want – live burns, auto extrication, first-in officer training, etc. Any female who is currently serving as a career or volunteer firefighter or EMT is welcome to join us at the Illinois Fire Service Institute (IFSI) in Champaign.

Please respond by July 1 and tell us what you would like to do, so that we can plan a day of good training activities for women. All of the facilities will be available to us for the day so no request is too big. We will also hold a networking session during lunch so that we can introduce ourselves and hopefully plan future training events.

If you would like to attend as an observer and participate in the networking session you are also welcome to join us. Please e-mail your attendance so we can plan accordingly for lunch.

E-mail replies are preferred, however, snail mail replies can be sent as well. Spread the word to your female co-workers! Let's get a good turnout of fire service women.

Can't Attend?

If you are unable to attend on October 9, but would still like to be included in future workshops, send an email, and we'll include you for future notices.

Cheryl Horvath is a field instructor for IFSI, teaching in the fire suppression and rescue programs. Cheryl is a career firefighter with Urbana Fire Rescue Service and serves as a Company Officer on Engine 22.
