Student Material

The number of the exam item (Question # 3 in this example) will be indicated in a list format followed by the corresponding references (explained in detail on next page)

Reference:
NFPA refers to the NFPA standard and edition that the question pertains to. NFPA Standards can be viewed online for free through NFPA’s website at:

OSFM:
The question has been tied to an Office of the State Fire Marshall (OSFM) objective number. These can be found by clicking the appropriate course title from the OFSM website at:

http://www.sfm.illinois.gov/fireservice/certification/types.aspx

IFSI:
This is the Illinois Fire Service Institute objective, e.g. 2.6. This would mean that the question pertains to the content in Module 2 objective #6. The Master Objective list can be found in the front of your student manual.

Instructor Manual:
“V” references the version number of the instructor manual, “M” references the module the question came from, and “P” references the page number in the module. (This validation information ensures the material is covered in our course).
Student Material:

This is where references to other resources such as textbooks (Jones and Bartlett or IFSTA, etc) may be listed.

From this list of information, you should be able to identify the general content of the question, and study accordingly. If you have any questions, do not hesitate to contact the Curriculum and Testing office at IFSI.
